## New Displays

To celebrate National Model Railroad Month, Marshall Public Library will have a dual display of model railroads. One display will focus on steam engines, while the other display focuses on diesel engines. The Read Around the World display case will focus on Japan.

The Million Minute Family Challenge has been very successful the past several months. We encourage anybody who has played a game with a group (2 or more people) to call the Library and let us know how many minutes you have played. These minutes count for the challenge. On November 17, 2011, the Library is hosting game night from 6:00 p.m. to 8:00 p.m. We hope you will come join the fun.
