Million Minute Family Challenge Results

The Marshall Public Library staff is thanking patrons for the great effort everyone put forth in the national Million Minute Family Challenge. In its 11th year, the Million Minute Family Challenge encouraged interaction and communication among family and friends by setting a national goal of playing games for a total of one million minutes from September 1 through December 31, 2011.

As a group, our final tally was 80,469 minutes which ranked us in second place nationwide out of 350 groups! Considering the fact that last year the entire state of Idaho only logged 1,900 minutes, Library patrons should be proud of their accomplishment. The final tally nationwide was 1,232,187 minutes.

As a result of this competition, we have seen families join together laughing, having fun, and enjoying time with each other. Many people took this challenge to heart and played games together and communicated in positive ways throughout the community. We have thoroughly enjoyed being a part of this challenge and look forward to participating again next year.

Great job everybody!
