# Discussion & Analysis

**1. Property Taxes.** The FY21 budget projects a 0.74% increase in the city levy rate. The homeowner's exemption remained \$100,000. At current estimates, the levy rate would be .010032518 (\$100,000 taxable value would pay \$1,003.25). Last year's levy was .010025140 (\$100,000 taxable value pays \$1,002.51). Recent city levy rates expressed for \$100,000 taxable value are:

FY2014	\$1,006.15
FY2015	\$1,078.99
FY2016	\$1,076.99
FY2017	\$1,117.09
FY2018	\$1,135.87
FY2019	\$1,150.91
FY2020	\$1,002.51
FY2021	\$1,003.25

- Predicted 0.74% levy increase vs. FY20
- Final valuation numbers could result in a smaller increase to levy
- Valuation numbers are provided to the City by the first week of August

The actual tax paid by any given taxpayer depends upon their assessed valuation from the county assessor. Their budgets and consequent levy impacts are not included here.

	<b>FY19</b>	<b>FY20</b>	<b>FY21 (estimated)</b>
\$100,000 Taxable Value	\$ 1,150.91	\$ 1,002.25	\$ 1,003.25
\$200,000 residence (tax impact) (Maximum value to take full advantage of current homeowner exemption)	\$ 1,150.91	\$ 1,002.25	\$ 1,003.25
Homeowner's Exemption (50% of taxable value is exempt, up to this limit, adjusted yearly according to an index of home values)	\$ 100,000	\$ 100,000	\$ 100,000

**2. Non-property tax revenue.** The FY21 budget illustrates other non-property tax revenue sources that assist tax supported services. Sales tax revenue continues to be strong. Due to the COVID-19 pandemic, revenues are projected to decrease from FY20. The City has created a budget for their FY21 revenue conservatively as good financial stewards.

**3. Budgetary Planning.** The City has developed a more conservative approach to budget development with the concept of, if more revenues become available, we can add the needed department expenses as the Mayor and Council review the additional needs of all departments. The City will continue to review department organizational structures through FY 2021 and make changes predominately through attrition to achieve long-term goals for the City.

The City adopted in fiscal year 2016 a reserve policy for the better management of City funds for cash flow needs and to navigate the possibility of unexpected revenue changes. The policy also dictates how excess reserves will be used. The reserve review report is completed after the annual audited financial data and before budget development meetings begin. During the fiscal year budget development, the reserve policy provided for capital and one-time expenditures, which allowed for the following: the Airport fund to replace 4 terminal HVAC units, a heat pump in a tenant building, ARFF station repairs and purchase an airfield friction testing meter; and the Cemetery fund to replace the roof of the administrative building and replace a UTV. This policy has had a positive impact to budget development for fiscal year 2021.

The City has also continued to move unexecuted retirement payoffs for vacation and sick leave to a Retirement Payout Fund. This has created a positive budgetary impact since we only have to budget for an individual retirement one time. Unexecuted capital expenditures are also moved to the Capital Improvement fund for future use.

**4. Labor Costs & Compensation.** Being a service industry, labor is the single largest cost in the city, accounting for 40.81% of total city expense, including all associated benefits. In the general fund, labor accounts for 76.56% of the budgeted expense (the general fund includes most of the employees in the city, including police & fire). The Consumer Price Index increased 1.764% from October 2018 to October 2019. The City has continued to utilize the new pay plan that was implemented in fiscal year 2018. Employees on the hybrid plan (not in their probationary period) will also receive a 1-step increase. The hybrid plan rolled longevity pay into the base wage for employees providing a more transparent reporting of employee costs. The plan addresses moving employees to a market-based wage.

Fiscal Year	Oct-Oct prior yr % City COLA's/ Change Market	
	in CPI	Adjustments
2010	3.00%	0.00%
2011	2.63%	1.00%
2012	1.63%	1.63%
2013	2.93%	2.00%
2014	1.59%	1.00%
2015	1.58%	0.50%
2016	1.66%	1.50%
2017	0.17%	0.00%
2018	1.64%	Hybrid Plan
2019	2.04%	Hybrid Plan
2020	2.52%	4.00%
2021	1.76%	0.00%

Retirement benefits have been discontinued going forward. City employees are covered by the State of Idaho’s Public Employee Retirement System of Idaho (PERSI). The City contributes 2/3 toward employee retirement and the employee contributes 1/3. Rates were increased by the PERSI board starting July, 2020.

**5. Bonded Debt and capital planning.** In fiscal year 2019, the Fire department incurred debt to replace 3 pumper trucks. The last time bonds were issued for the City was in FY15 when the Idaho Bond Bank issued \$23.4M in sewer bonds to finance the EPA-mandated improvements at the wastewater treatment plant. The City continues to set aside money for future capital projects. The fiscal year 2021 budget provides the Mayor and Council with the ability to meet capital needs with a capital contingency budget of \$1,070,000.

**6. Street Infrastructure.** The Street Department is budgeted to maintain the street maintenance program. The base program of \$1 Million for road paving and sealing has been proposed. Funding will be adequate to achieve the goal of treating 10% of the city’s 265 miles of streets with appropriate overlay, sealing and micro sealing treatments and meet the ADA requirements. As always, the estimate is subject to changes in material prices next season.

**7. Emergency Services.** The FY21 budget sustains existing operations and provides for much needed emergency service equipment.

**8. Enterprise Funds (Utilities).** Utility rates will have modest increases for fiscal year 2021 if the proposed rate increases are approved. These increases are in accordance with the rate study adopted in fiscal year 2019. During fiscal year 2015, the city obtained bond monies for the phosphorus upgrade construction project, which was necessary to meet EPA mandated permit requirements, highlighted by a requirement to take more Phosphorus out of our discharge. The project was completed at the end of fiscal year 2019.

A typical residential customer uses 9,000 gallons of water per month (less in winter, more in summer, 9,000 gallons is the median) with a 3/4” connection, has a 96-gallon sanitation cart service and has standard residential sewer. The combined impact in FY21 of proposed utility changes are illustrated below:

***City of Pocatello, ID Utility rate comparison***

	Adopted FY 19	Adopted FY 20	Proposed FY 21	Net Increase
Sanitation 96-gallon service	\$18.52	\$19.84	\$20.39	\$0.55
Water 3/4" fixed line charge	\$10.05	\$10.69	\$11.40	\$0.71
Water 9,000 gallons	\$22.86	\$23.58	\$24.30	\$0.72
Sewer, residential service	\$31.35	\$31.63	\$31.91	\$0.28
<b>Monthly Total</b>	<b>\$82.78</b>	<b>\$85.74</b>	<b>\$88.00</b>	<b>\$2.26</b>

\*The changes to utility rates will become effective October 1, 2020 for Sanitation, Water and Sewer.

Municipal utilities often have financial characteristics that are unique to each community. Communities differ in their water sources, wastewater discharge situations, landfill opportunities (or lack thereof) – all of which affect cost of operations and user rates. In the end, each community has to adjust to their circumstances. Despite that fact, it is still useful to know how our local utility rates compare in the region. Here is how our water utility compared in FY20 (FY21 comparison still to be determined as we and others adjust rates for the coming year):

**Water:**

**Current FY20 Median Single Family Customer Monthly Bill  
(6,000 Gallons/Mo)**

- Idaho Falls charges a flat rate of \$21.65 + \$11.60 (irrigation) + \$0.25 (DEQ fee) = \$33.50/mo
- Twin Falls charges an additional \$10.75 for arsenic treatment as of 7/1/2010

**10. FY21 budget overall.**

Strengths of the budget plan include:

- The 2021 budget proposal adds the following positions: 5 Police Officers, 3 Firefighters, a Parks Maintenance Technician and an Airport Senior Equipment Operator.
- Capital and additional operating needs related to services have been addressed
- Realistic revenue estimates.
- Application of the new 2019 Rate Study.
- Workable pavement management program that will allow various treatments of about 10% of the city's streets while also continuing the implementation of ADA ramp mandates. The completion of the Idaho Transportation federal aid projects and repayment of the internal loan to the Sanitation Fund.
- Sustains public safety operations and the purchase of emergency equipment for the Police and Fire Departments.
- Realistic budget developed for the Transit operations to keep services in line with approved City match.

# Detailed FY 2021 Proposed Budget Tables

The following pages are excerpts from the FY21 Budget Digest. These tables provide detailed information fund-by-fund, department by department. Key information includes:

- 1) **Budget Summary.** This table lists planned revenue and planned expense for each fund, along with the difference between the two, if any. The normal expectation is that the fund will have a “balanced” financial plan in that revenues will equal expenses. But this isn’t always the case. Some funds may plan to build cash balance by having revenues exceed expenses this year. In future years, some of that accumulated balance might be used to allow a year in which expenses exceed revenue. A household analogy might be a car fund that is built up over several years to purchase an automobile. For several years, revenue exceeds expense. Then one buys the car and for that year, expenses exceed revenue.
- 2) **Comparisons and Charts.** Charts and comparison reports are provided for a deeper analysis of the proposed budget.
- 3) **Revenues.** This table shows revenue for each fund by broad category of taxes, licenses, charges for service and so on. The largest single source of projected revenue is charges for service, mostly in the city utilities (Water, Sewer and Sanitation).
- 4) **Property Tax Summary.** This page shows how \$31,710,766 in property taxes will be spent, how that compares to last year, how taxes compare FY10-FY21 and what the projected levy rate will be, based on current valuation projections from the County Assessor. If valuation comes in a little stronger, the levy rate would be a little less than shown here. If valuation is a little less, then the levy rate could go up.
- 5) **Expenditures.** This table shows expenditures by fund by broad categories (wages, benefits, supplies, utilities, etc.). The single biggest expense for the city is labor, with wages, medical benefits and other benefits combining for 41.15% of total projected expense. That is appropriate considering that the City is largely a service industry. Capital is also important, with the largest expenditures planned in the Street Fund, Water Fund, Water Pollution Control Fund, Airport Construction Fund, and Capital Improvement Fund.
- 6) **General Fund Department Detail.** This table shows expenditures by department by broad category within just the General Fund. The General Fund finances many of the “traditional” City functions, including Police, Fire and Parks. Fire and Police together account for 67.88% of the General Fund. The General Fund accounts for the largest share of property tax dollars (69.77%).
- 7) **General Fund Comparisons FY20 to FY21.** This two page table shows expenses by broad category within each department of the General Fund, compares that to the prior year FY20 and provides a dollar and percentage difference.
- 8) **Other Selected Fund Comparisons FY20 to FY21.** This three-page table provides similar comparisons for the other major funds of the city.
- 9) **General Fund, Tax Fund and City Wide Comparisons FY20 to FY21.** These three pages present comparisons in a vertical format and include a subset of the “tax funds”. These funds are supported mostly or in part by taxes and are of particular interest to most citizens.

The “city-wide” snapshot sometimes loses some explanatory power because the overall figures mask year-to-year changes in capital projects and grants that materially impact the overall numbers. Overall, the City is authorized to spend more than it anticipates in revenue primarily for these reasons: 1) The Utility funds (Sanitation, Water and Water Pollution Control) budget were programmed to expend reserves for operations; 2) the Worker’s Compensation Insurance Fund is authorized to spend reserves if needed; 3) the Water Construction Fund budget is developed to spend bond monies for water rights if opportunities are presented to the City in FY21 4) Fund 951 (police retirement) is programmed to gradually draw down as retiree expenses are completed (it is a closed end pension fund with no new entrants). Additionally, several other revolving loan funds are programmed for contingent use of cash reserves in case loan demand exceeds program income during the year.

# **Proposed Fee Changes**

**FY 2021**

## **Detailed Listing**

This report contains details on proposed fee changes for FY 2021, including those that are 5% or greater. The proposed increases are necessary to cover increased costs in the various programs or to recover costs through fees instead of taxes. A public hearing is scheduled at 6 pm on Thursday, August 6, 2020 in the Council Chambers at City Hall, 911 North 7<sup>th</sup> Avenue, Pocatello, Idaho.

## NOTICE OF ALL FEE CHANGES

The City of Pocatello, Idaho proposes to increase selected annual fee revenue collections beginning October 1, 2020, in the departments listed below by amounts that may exceed one hundred and five percent (105%) of the respective fee revenue collections from the previous year (5% increase). The proposed fee increases are due to additional costs of programs or an attempt by departments to recover costs through fee charges versus tax increases.

**About fees:** Fee revenue either supplements tax revenues or provides the entire financial support for some services. User fees allow the program costs to be recovered by those receiving the service. For example, we all pay taxes to support the Fire department and we all benefit from trained firefighters in case of emergency. But if a specific individual requests a special service, such as an inspection, then a fee is charged to the user. That way the user pays the extra cost of the specific service requested.

Fees should be periodically adjusted to keep up with inflation or else more of the burden falls unfairly on the general taxpayer. In the case of utilities (Sanitation, Water & Sewer), these business-type activities are 100% fee supported. No tax dollars are involved. Utility fees are reviewed by an outside consultant and designed to recover costs of providing the service.

This public hearing and Council process is for all fee changes in the City for FY 2021.
